Communications on Applied Mathematics and Computation

This series contains graduate and undergraduate textbooks on topics described by the term "computational science and engineering". This includes theoretical aspects of scientific computing such as mathematical modeling, optimization methods, discretization techniques, multiscale approaches, fast solution algorithms, parallelization, and ...

Texts in Computational Science and Engineering | SpringerLink

This series contains monographs of lecture notes type, lecture course material, and high-quality proceedings on topics described by the term "computational science and engineering".

Lecture Notes in Computational Science and Engineering ...

This series contains graduate and undergraduate textbooks on topics described by the term "computational science and engineering". This includes theoretical aspects of scientific computing such as mathematical modeling, optimization methods, discretization techniques, multiscale approaches, fast solution algorithms, parallelization, and ...

Computational Science and Engineering - static.springer.com

Abstract. Capturing provenance data for runtime analysis has several challenges in high performance computational science engineering applications.

Capturing Provenance for Runtime Data ... - link.springer.com

Computational science and engineering is an emerging and promising discipline in shaping future research and development activities in academia and industry, in fields ranging from engineering, science, finance, and economics, to arts and humanities.

International Journal of Computational Science and Engineering

Computational science and engineering (CSE) is a relatively new discipline that deals with the development and application of computational models and simulations, often coupled with high-performance computing, to solve complex physical problems arising in engineering analysis and design (computational engineering) as well as natural phenomena (computational science).

Computational science - Wikipedia

Springer Berlin Heidelberg (2009) £89.50 This unique perspective explores the role of computer simulation in the sports realm, through the study of five specific examples. Readers will find detailed coverage of the contributions computational science and engineering (CSE) make to sports research. Add to Cart Add to Cart Add to Wishlist Add to Wishlist. This unique perspective explores

eBooks.com: Lecture Notes In Computational Science And ...

The Journal of Computational Science aims to be an international platform to exchange novel research results in simulation based science across all scientific disciplines. It publishes advanced innovative, interdisciplinary research where complex multi-scale, multi-domain problems in science and engineering are solved, integrating sophisticated numerical methods, computation, data, networks ...

Journal of Computational Science - Elsevier

Computational science and engineering is an emerging and promising discipline in shaping future research and development activities in both academia and industry, in fields ranging from engineering, science, finance, and economics, to arts and humanities. New challenges arise in the modelling of complex systems, sophisticated algorithms, advanced scientific and engineering computing and ...

Lecture Notes in Computational Science and Engineering

Part of the Lecture Notes in Computational Science and Engineering book series (LNCSE, volume 59) Log in to check access. Buy eBook ... The most significant advances in computational techniques have been made only in the last few years, and several challenging technological applications are presented in this volume. ...

Modeling and Computations in Electromagnetics | Springer ...

The aim of the journal is to publish papers that advance the field of computational materials science through the application of modern computational methods alone or in conjunction with experimental techniques to discover new materials and investigate existing inorganic materials, such as metals, ceramics, composites, semiconductors, nanostructures, 2D materials, metamaterials, and organic ...

Computational Materials Science - Journal - Elsevier

Advances in Computational Science and Engineering Second International Conference, FGCN 2008, Workshops and Symposia, Sanya, Hainan Island, China, December 13-15, 2008.
